PROJECT

- **Designed a Printer Pages Counting System** using machine learning, image processing, and OCR for accurate page analysis.
- **Developed a Pneumonia Detection System** employing CNNs for chest X-ray analysis and efficient diagnosis.
- **Built an AI-powered e-commerce chatbot** with NLP and deep learning for personalized recommendations and customer support.

WORK HISTORY

Writefy by Bluepen - Intern

01/2024 - 05/2024

Internship Experience:

- Contributed to front-end and back-end development using HTML, CSS, JavaScript, Python, and Django.
- Played a key role in designing and optimizing Writefy by BluePen's website, aligning with the company's strategic objectives.
- Gained proficiency in version control, deployment strategies, and cloud technologies, enhancing BluePen's digital presence.

Jeet Techno Solutions LLP - Intern

07/2020 - 08/2020

- During this training, I gained knowledge in emerging technologies like IoT, foundational Python programming using Anaconda, and enhanced my communication and public speaking skills.
